

PICK UP STACKS

Materials:

- Unifix™/snap cubes

Directions:

Show the child five stacks of snap cubes of different colors and amounts.

Ask: Can you make 7 (8 or 9)?

The child may pick up more than one stack at a time to represent the number. Ask the child to explain the strategy they used. As an extension of this activity, you could ask the child to make another combination of the same number using the remaining stacks or the original configuration stacks.

Curriculum Code:

Math Concept:

Compose and decompose a number as two parts using pictures, manipulatives or symbols.

Number of Students:

INDIVIDUAL/SMALL GROUP
